**Project Title:** Job portal for differently-abled people

**YOUR PROJECT**

In the context of Nepal, although there have been a lot of job portals created in the last few years, there still isn't a job portal dedicated to addressing the issue of differently-abled people trying to get jobs to improve their economic level. It is difficult for differently-abled people to search for jobs with ease and efficiency. Likewise, job providers who are providing opportunities to differently-abled people also difficulty in the recruitment of such people. My project will aim to fulfill this market gap by connecting differently-abled job seekers with job providers through a job portal named "Jobable".
